

Meet My Clone

I can describe the character of a person using a variety of adjectives.

I can understand and spell at least 15 adjectives in English.

I have become a better writer.

I have written a story about my clone. My story has got an introduction and at least three chapters. I have followed the instructions for the chapters.

I have learned to write and say many new words in English.

I have made an audiobook of my story in *Book Creator*. I have also added a few pictures to my book.

I have read my classmates' books and given them feedback on their stories.

I have followed the planning, drafting and writing order of my project.

IP= ideas planned

D = story in draft form

E= story edited and checked

I have presented my clone to the reader by first filling in the draft and then written my presentation as an introduction to my book.
